

## **Why go to church?**

That is a question that needs to be answered not only by those thinking about attending but also by church leaders at the local church. We at New Life Church keep that question in the forefront of our minds and ministry. Why would anyone want to come and be a part of our church?

We like to say that our church is “A Church That Loves!” We love God, we love one another and we love those outside of our church family. This is what we strive to live out, lives so filled with love that this love is felt by everyone we come into contact with. There are not many places in our society where people of different looks and perspectives can come together and really get along and even love one another. A good church nurtures this type of environment!

Another huge positive that occurs at a healthy church is the growing of our relationship with God. In a good church family, folks are challenged to rely more on God through Bible teaching, worship, friendship development (we use a church word for that...fellowship) and service.

Now, our church may not be the right fit for you, but God has the right place for you, keep looking until you and He find it together!
